

Classroom Supplies for Mrs. Harmeyer's Physical Science classes

Textbook: Prentice Hall Exploring Physical Science (I will provide this)

Four spiral-bound one-subject notebooks: (nothing more, nothing less, nothing different), one for each quarter; do not put any other subjects into your Physical Science notebook; put your name on each notebook

Four pocket folders: put your name on each folder

Two manila folders: put your name on the tab of each folder

Writing instruments: blue or black pens or pencils

Writing instrument for correcting your work: red pens

Calculator: Texas Instruments, TI-30XA (no programmable calculators are acceptable).

This is the calculator that I use for myself and to teach with; thus, anything different from mine will make your learning process more difficult. They are readily, and cheaply, available from Walgreen's, Walmart, Office Depot, just to name a few. I will not stop class to help you with your calculator if your calculator is different from mine.

Two boxes of facial tissue

Three rolls of paper towels: (do not submit paper towels that have soap in them...these mess up the lab tables and the lab equipment)

One box of sanitary wipes

One box of hand wipes
