

Honors Physics
Mrs. Shepherd
Supply List 2021-2022

The following items will be used in class. These items are to be kept with the student at all times. These items will not be collected from the students, so they may use them in other classes as long as they have them in physics class.

TI-84/83 Calculator - The TI-81 or TI/82 are also acceptable for this class. They have all of the functions that we need for this class. If you have one of these older models, there is no need to purchase the 83/84 model.

pencils/pens - Something to write with on a daily basis

colored pencils/markers - These will be used for drawing various figures. Please keep at least 3 colors in your backpack at all times.

protractor } These items will be used for drawing various figures. Please keep
ruler (cm) } them in your backpack at all times

Binder/notebook/paper/folder - Students will need something on which to take notes and in which they can organize worksheets. Students may choose whatever method they wish for taking notes and staying organized. Be aware that many handouts will be given that students need to keep track of for extended periods of time, so a three ring binder is recommended, but the choice of how to organize is left to the student.

If you have any questions, please contact me at tshepherd@holysaviormenard.com
