

Statistics
Mrs. Shepherd
Supply List 2021-2022

The following items will be used in class. These items are to be kept with the student at all times. These items will not be collected from the students, so they may use them in other classes as long as they have them in statistics class.

TI-84/83 Calculator - The TI-81 or TI/82 are also acceptable for this class. They have all of the functions that we need for this class. If you have one of these older models, there is no need to purchase the 83/84 model.

pencils/pens - Something to write with on a daily basis

Binder/notebook/paper/folder - Students will need something on which to take notes and in which they can organize worksheets. Students may choose whatever method they wish for taking notes and staying organized. A three ring binder is recommended due to the large number of handouts that will be given in this class, but the choice of how to organize is left to the student.

Tablet/Laptop - The textbook for this class is provided in digital format and all homework assignments must be completed through an online subscription program. Students will need to bring a device capable of accessing the Internet to class each day.

Subscription to Webassign - WebAssign is an online subscription program which will be used for graded homework assignments which are part of the grade for both LaTech Stats 200 and Menard Stats. This software is a required part of this course.

There is a fee for this program and includes an ebook. (Approximately \$110)

How to subscribe will be detailed at the start of the course.

Optional items:

ruler (cm) - This is an optional supply that many students find useful for drawing graphs. It is up to the student if they wish to keep a ruler with them.

There is a \$25 registration fee and a \$150 course fee to dual enroll in LA Tech Statistics 200. Dual enrollment is not required. Reasons to dual enroll will be discussed at the start of school. If you have questions, please contact Mrs. Shepherd
